

Subpart C—Metropolitan Transportation Planning and Programming

§ 450.300 Purpose.

The purpose of this subpart is to implement 23 U.S.C. 134 and section 8 of the Federal Transit Act, as amended, which require that a Metropolitan Planning Organization (MPO) be designated for each urbanized area and that the metropolitan area has a continuing, cooperative, and comprehensive transportation planning process that results in plans and programs that consider all transportation modes and supports metropolitan community development and social goals. These plans and programs shall lead to the development and operation of an integrated, intermodal transportation system that facilitates the efficient, economic movement of people and goods.

§ 450.302 Applicability.

The provisions of this subpart are applicable to agencies involved in the transportation planning, program development, and project selection processes in metropolitan planning areas.

§ 450.304 Definitions.

Except as otherwise provided in subpart A of this part, terms defined in 23 U.S.C 101(a) are used in this part as so defined.

§ 450.306 Metropolitan planning organization: Designations and redesignation.

(a) Designations of metropolitan planning organizations (MPOs) made after December 18, 1991, shall be by agreement among the Governor(s) and units of general purpose local governments representing 75 percent of the affected metropolitan population (including the central city or cities as defined by the Bureau of the Census), or in accordance with procedures established by applicable State or local law. To the extent possible, only one MPO shall be designated for each UZA or group of contiguous UZAs. More than one MPO may be designated within an UZA only if the Governor(s) determines that the size and complexity of the UZA make designation of more than one MPO appropriate.

(b) The designation shall clearly identify the policy body that is the forum for cooperative decisionmaking that will be taking the required approval actions as the MPO.

(c) To the extent possible, the MPO designated should be established under specific State legislation, State enabling legislation, or by interstate compact, and shall have authority to carry out metropolitan transportation planning.

(d) Redesignation (designation of a new MPO(s) to replace an existing MPO) shall occur by agreement of the Governor and affected local units of government representing 75 percent of the population in the entire metropolitan area. The central city(ies) must be among the units of local government agreeing to the redesignation.

(e) Nothing in this subpart shall be deemed to prohibit the MPO from utilizing the staff resources of other agencies to carry out selected elements of the planning process.

(f) Existing MPO designations remain valid until a new MPO is redesignated, unless revoked by the Governor and local units of government representing 75 percent of the population in the area served by the existing MPO (the central city(ies) must be among those desiring to revoke the MPO designation), or as otherwise provided under State or local procedures. If the Governor and local officials decide to redesignate an existing MPO, but do not formally revoke the existing MPO designation, the existing MPO remains in effect until a new MPO is formally designated.

(g) Redesignation of an MPO in a multistate metropolitan area requires the approval of the Governor of each State and local officials representing 75 percent of the population in the entire metropolitan planning area. The local officials in the central city(ies) must be among those agreeing to the redesignation.

(h) Redesignation of an MPO covering more than one UZA requires the approval of the Governor and local officials representing 75 percent of the population in the metropolitan planning area covered by the current MPO; the local officials in the central city(ies) in each urbanized area must
